Latin American Literature at the Millennium: Local Lives, Global Spaces analyzes literary constructions of locality from the early 1990s to the mid-2010s. In this astute study, Raynor reads work by Roberto Bolaño, Valeria Luiselli, Luiz Ruffato, Bernardo Carvalho, João Gilberto Noll, and Wilson Bueno to reveal representations of the human experience that unsettle conventionally understood links between locality and geographical place. The book raises vital considerations for understanding the region's transition into the twenty-first century, and for evaluating Latin American authors' representations of everyday place and modes of belonging. It examines relevant theory on globalization and historical context, including a discussion of the political and economic forces at work when considering Latin America's engagement with global processes. Across its chapters, it traces localizing techniques in canonical works as well as under-studied and peripheral texts, exploring "local" as a plural concept constructed through language, memory, and patterned affective attachments. Students and scholars of Hispanic and Lusophone studies will find it to be a critical text.

Investigating the complex interrelations between culture and politics in a wide range of social movements in Latin America, this book focuses on the cultural politics enacted by social movements as they struggle for new visions and practices of citizenship, democracy, social relations, and development. The volume explores the potential of these cu

In this book, China-Latin America relations experts Margaret Myers and Carol Wise examine the political and economic forces that have underpinned Chinese engagement in the region, as well as the ways in which these forces have shaped economic sectors and policy-making in Latin America. The contributors begin with a review of developments in cross-Pacific statecraft, including the role of private, state-level, sub-national, and extra-regional actors that have influenced China-Latin America engagement in recent years. Part two of the book examines the variety of Latin American development trajectories borne of China's growing global presence. Contributors analyse the effects of Chinese engagement on specific economic sectors, clusters (the LAC emerging economies), and sub-regions (Central America, the Southern Cone of South America, and the Andean region). Individual case studies draw out these themes. This volume is a welcome addition to the growing body of literature on China-Latin America relations. It illuminates the complex interplay between economics and politics that has characterized China's relations with the region as a second decade of enhanced economic engagement draws to a close. This volume is an indispensable read for students, scholars and policy makers wishing to gain new insights into the political economy of China-Latin America relations.
