This volume presents a systematic overview of current research on the issues that arise when recreating and translating dialogue in works of fiction (including narrative, drama and film scripts). The central concept is that of fictive orality, a situational linguistic variety differing from spontaneous speech in various respects. Speech in fiction is the product of stylised recreation or evocation by an author. While realism and authenticity may be the most celebrated qualities, ultimately, the literary functions and the semiotic dimension of dialogue place significant constraints on the decisions taken both by the source text authors and the translators. Moreover, the traditions and conventions of the target culture act as powerful sources of expectations that influence the final form of the text. This collective volume is divided into three parts: Part 1 deals with the translators' own reflections on the qualities of fictive dialogue. Part 2 discusses the interaction of fictive orality with other varieties such as dialects (geographical, chronological and social) and genres. Part 3 discusses a range of language resources present in fictive dialogue (syntax and sentence connection, information packaging, pragmatic markers and modalisers, appreciative morphology and phrasemes, spelling and typographical conventions, deictics, etc). All chapters present research results in an accessible language and are thoroughly illustrated with translations from and into various European languages (English, German, French, Spanish, Catalan, Romanian and Italian) and their varieties. The volume will be of interest for scholars in translation studies and contrastive linguistics, for graduate students, and for readers interested in the translation of style.

A monumentally informed and irresistibly opinionated guide to the most un-Spanish city in Spain, from the bestselling author of *The Fatal Shore*. In these pages, Robert Hughes scrolls through Barcelona's often violent history; tells the stories of its kings, poets, magnates, and revolutionaries; and ushers readers through municipal landmarks that range from Antoni Gaudi's sublimely surreal cathedral to a postmodern restaurant with a glass-walled urinal. The result is a work filled with the attributes of Barcelona itself: proportion, humor, and *seny*—the Catalan word for triumphant common sense.

Recently, research in the Humanities is showing an increasing interest in exactly how language and other semiotic resources support each other. The eighteen articles of this book focus on the interplay between spoken language and other modalities and address a spectrum of cross-modal resources and their functions. They also discuss how multimodal resources are exploited to increase communicative effectiveness and broaden accessibility to knowledge. This is illustrated with examples from discourse types including dramatic, literary and audiovisual texts, Facebook communication and chats, comics and audio-guides. The volume will be of interest to scholars of linguistics, translation studies, museology and education, and for readers interested in the wide array of possibilities that multimodal texts open up for meaning-making.

This book, a first in its kind, offers a survey of the present state of affairs in media accessibility research and practice. It focuses on professional practices which are relative newcomers within the field of audiovisual translation and media studies, namely, audio description for the blind and visually impaired, sign language, and subtitling for the deaf and the hard-of-hearing for television, DVD, cinema, internet and live performances. Thanks to the work of lobbying groups and the introduction of legislation in some countries, media accessibility is an area that has recently gained marked visibility in our society.

It has begun to appear in university curricula across Europe, and is the topic of numerous specialised conferences. The target readership of this book is first and foremost the growing number of academics involved in audiovisual translation at universities ? researchers, teachers and students ? but it is also of interest to the ever-expanding pool of practitioners and translators, who may wish to improve their crafts. The collection also addresses media scholars, members of deaf and blind associations, TV channels, and cinema or theatre managements who have embarked on the task of making their programmes and venues accessible to the visually and hearing impaired.

Squeezed between more powerful France and Spain, Catalonia has endured a violent history. Its medieval empire that conquered Naples, Sicily and Athens was crushed by Spain. Its geography, with the Pyrenees falling sharply to the rugged Costa Brava, is tormented, too. Michael Eaude traces this history and its monuments: Roman Tarragona, celebrated by the poet Martial; Greek Empuries, lost for centuries beneath the sands; medieval Romanesque architecture in the Vall de Boi churches (a World Heritage Site) and Poblet and Santes Creus monasteries. He tells the stories of several of Catalonia ' s great figures: Abbot Oliva, who brought Moorish learning to Europe, the ruthless mercenary, Roger de Flor, and Verdaguer, handsome poet-priest. Catalonia is famous today for its twentieth-century art. This book focuses on the revolutionary Art Nouveau buildings (including the Sagrada Familia) of Antoni Gaudi. It also explores the region ' s artistic legacy: the young Picasso painting Barcelona ' s vibrant slums; Salvador Dali, inspired by the twisted rocks of Cap de Creus to paint his landscapes of the human mind; and Joan Miro, discovering the colours of the red earth at Montroig.

If you want a holiday that's hassle-free, virtually pre-paid, and that lets you see lots of places while only needing to pack and unpack once, then you should try a cruise. This best-selling book is the cruise industry bible: it gives you all the information you need to choose the right cruise for you. Meticulously updated every year by cruise expert Douglas Ward, it is divided into two main parts: the first helps you work out what you're looking for in a cruise holiday and how to find it; the lively text and colour photographs describe every aspect of life on board, including safety, the highs and lows of the cruise experience and how to save money. The second part contains unbiased reviews and fascinating detail of almost 300 ocean-going cruise vessels, and grades them on service, food, entertainment and facilities, using an internationally recognised ratings system.
