The Committee's report reviews the Department for International Development's 2007 annual report (HCP 514, session 2006-07, ISBN 9780102945195), focusing on issues of efficiency and effectiveness. The Committee welcomes the increase in the DFID's budget under the Comprehensive Spending Review

Settlement for 2008-11, in line with the target of 0.7 per cent of Gross National Income to be allocated to Official Development Assistance by 2013. However, it notes the significant challenge for DFID in using this funding effectively when it is also required to reduce its administrative costs, and therefore staff numbers, at a time when its focus is shifting increasingly towards fragile states where providing assistance is resource-intensive. Concerns are raised that DFID continues to emphasise inputs rather than outcomes, although DFID's new Public Service Agreement Delivery Agreement and the plans to establish the Independent Advisory Committee on Development Impact should make it easier to identify whether DFID's expenditure is effective in reducing poverty in developing countries. Four areas for improvement in DFID's work are highlighted relating to gender equality, climate change, governance and agricultural development.
