Solution Comparison Meraki vs Aerohive

Meraki Vs Aerohive Wireless Solution Meraki Meraki wireless includes all features in a single license, and 24x7 tech support is included at no additional charge. Licenses are avail-able in 1, 3, 5, 7, and 10 year terms. Aerohive Aerohive licenses are available in 1, 3, and 5 year terms.

Meraki Vs Aerohive Wireless Solution Comparison

Diving into Meraki vs. Aruba vs. Aerohive Meraki. Cisco's Meraki is a simplified, cloud-managed AP solution that can be monitored and controlled through an intuitive, centralized dashboard. This means that you can remotely configure thousands of devices, across myriad locations, without having to deploy on-site staff each time you need to troubleshoot or reconfigure. Without a bottleneck of hardware controllers, Meraki is able to provide a high-density Wi-Fi solution designed to address ...

Meraki vs. Aruba vs. Aerohive—Choosing the Right AP ...
With Aerohive in a room next door behind a cider block wall I was able to connect 70 plus devices while streaming a video. The Meraki was a different story while in the same room it stopped allowing connection of clients after 30 devices. Probably another

thing that through me off was the Meraki push of the dashboard instead of the APs.

Meraki vs Aerohive - The Meraki Community

Meraki has a more complete portfolio if you're looking for a single solution for your network infrastructure. Aerohive is probably stronger in terms of wireless (since that's their focus) by not really by much. Both are decent and fairly reliable solutions. There really isn't a clear winner in my book.

Meraki Vs Aerohive Wireless Solution Comparison

Meraki vs Cisco Wireless Solutions I actually have both product sets running- our main campus network has over 3,000 APs (Cisco) and we have a 6-month old Meraki installation on our London campus with 35 MR16 APs.

Meraki vs Cisco Wireless Solutions - Cisco Community
Meraki is cloud controlled while Aerohive is cloud managed. If the cloud is inaccessible for whatever reason Meraki is dead in the water (this comes from experience) while Aerohive just keeps working. Also when Aerohive comes out of support it just keeps working while, as the threads showed, Meraki shut the entire wireless network down.
