Originally Mercedes-Benz models were badged with numbers followed by letters, such as 190 E. Starting with the W202 Series, Mercedes-Benz began to name all models using letters before the number, for example, C 180 or C 220. The W202 C-Class was the first Mercedes-Benz model to use the new, modern naming scheme.

The immediate product extracted from oil and gas wells consists of mixtures of oil, gas, and water that is difficult to transport, requiring a certain amount of field processing. This reference analyzes principles and procedures related to the processing of reservoir fluids for the separation, handling, treatment, and production of quality petroleum oil and gas products. It details strategies in equipment selection and system design, field development and operation, and process simulation and control to increase plant productivity and safety and avoid losses during purification, treatment, storage, and export. Providing guidelines for developing efficient and economical treatment systems, the book features solved design examples that demonstrate the application of developed design equations as well as review problems and exercises of key engineering concepts in petroleum field development and operation.

Does not cover diesel or 2.6 liter.
