Interest in the study of life in hot environments, both with respect to the inhabiting microorganisms and the enzymes they produce, is currently very high. The biological mechanisms responsible for the resistance to high temperatures are not yet fully understood, whereas thermostability is a highly required feature for industrial applications. In this e-book, the invited authors provide diverse evidence contributing to the understanding of such mechanisms and the unlocking of the biotechnological potential of

This book constitutes the refereed proceedings of the 24th Nordic Conference on Secure IT Systems, NordSec 2019, held in Aalborg, Denmark, in November 2019. The 17 full papers presented in this volume were carefully reviewed and selected from 32 submissions. They are organized in topical sections named: privacy; network security; platform security and malware; and system and software security.

The way Americans live and work has changed significantly since the creation of the Social Security Administration in 1935, but U.S. social welfare policy has failed to keep up

with these changes. The model of the male breadwinner-led nuclear family has given way to diverse and often complex family structures, more women in the workplace, and nontraditional job arrangements. *Old Assumptions, New Realities* identifies the tensions between twentieth-century social policy and twenty-first-century realities for working Americans and offers promising new reforms for ensuring social and economic security. *Old Assumptions, New Realities* focuses on policy solutions for today's workers—particularly low-skilled workers and low-income families. Contributor Jacob Hacker makes strong and timely arguments for universal health insurance and universal 401(k) retirement accounts. Michael Stoll argues that job training and workforce development programs

can mitigate the effects of declining wages caused by deindustrialization, technological changes, racial discrimination, and other forms of job displacement. Michael Sherraden maintains that wealth-building accounts for children—similar to state college savings plans—and universal and progressive savings accounts for workers can be invaluable strategies for all workers, including the poorest. Jody Heymann and Alison Earle underscore the potential for more extensive work-family policies to help the United States remain competitive in a globalized economy. Finally, Jodi Sandfort suggests that the United States can restructure the existing safety net via state-level reforms but only with a host of coordinated efforts, including better information to service providers, budget analyses, new

funding sources, and oversight by intermediary service professionals. Old Assumptions, New Realities picks up where current policies leave off by examining what's not working, why, and how the safety net can be redesigned to work better. The book brings much-needed clarity to the process of creating viable policy solutions that benefit all working Americans. A West Coast Poverty Center Volume
