Welcome to Missouri
Wildflowers Nursery.

Since 1984, we've been
growing and selling
native plants and seeds.

Missouri is the genetic
origin of our plants, so
they are best adapted to
states east of the Rockies.

The field or meadow wildflower garden is different from woodland wildflower gardens. It is composed of a wide range of plants that flower in full sun or must have at least six hours of full sun each day to grow and flower well. Soils for these plants can generally be less fertile and lower in organic matter.
