repertoire covers basic rudiments (intervals, chords and scales), melodies, four-part harmonic settings and varied textures from musical literature, including music by a wide range of major composers -- from Bach and Beethoven to Debussy and Stravinsky.

The standard in ear training instruction is Horvit/Koozin/Nelson *MUSIC FOR EAR TRAINING*. The Fourth Edition takes a hybrid approach to deliver a wealth of practical material that will help students quickly improve their listening and ear training skills. The accompanying digital resources for this text are easy to use and include high-quality recordings of various instruments playing each exercise. The dictation repertoire includes basic rudiments (intervals, chords, and scales), melodies, four-part harmonic settings, and varied textures from musical literature. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Designed for the musicianship portion of the freshman theory sequence, Benjamin/Horvit/Nelson *MUSIC FOR SIGHT SINGING*, Sixth Edition, presents music that is challenging without overwhelming young musicians. Drawing on their extensive experience as composers and arrangers who adapt music for their own students, the authors strike a critical balance between rigor and accessibility. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This workbook and CD-ROM combination is designed to help students improve their listening/ear-training skills. Students notate the music in the workbook as they listen to the CD. The dual-format CD-ROM provides an easy-to-use interface for listening with varied General MIDI instrumental sounds. The repertoire for dictation includes exercises on basic rudiments (intervals, chords, and scales), melodies, four-part harmonic settings, and varied textures from musical literature.

Designed to serve as a primary text for the first two years of college music theory, **TECHNIQUES AND MATERIALS OF MUSIC**, 7th Enhanced Edition covers all the basics of composition--including harmony, melody, and musical form. The authors present essential materials of common-practice music and an overview of 20th century techniques, and include numerous hands-on exercises to help students better retain key concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- The most engaging and musical Sight-Singing text on the market. Music for Sight Singing is structured around organized melodies drawn from the literature of composed music and a wide range of the world's folk music. Real music exercises allow readers to practice sight singing and develop their "mind's ear" -- the ability to imagine how music sounds without first playing it on an instrument. The ninth edition continues to introduce a host of important musical considerations beyond pitch and rhythm- including dynamics, accents, articulations, slurs, repeat signs, and tempo markings. The book's arrangement of simple to complex exercises lays the foundations for success. Learning Goals Upon completing this book, readers will be able to: Fluently read rhythms in simple and compound meters, including those in relatively unusual, irregular, or changing meter signatures. Sight sing melodies in any major or minor key, and in any diatonic mode. Effortlessly read all four common clefs. Understand common musical symbols and terms. Recognize and sing important harmonic features such as dominant seventh and Neapolitan chords. Improvise effectively from a variety of background structures such as a harmonic
