This bike was purchased for annual summer touring. It performed exceptionally well on the Erie Canal tour of 2008. I own a bike for commuting and a road bike that I also use for the daily commute.

Gald to hear they are still in production even if with a new name. I bought my first Novara bike at the Anchorage REI over 25 years ago and it is still going strong. I ride it weekly and it never fails me!

Novara isn't

In my
experience,
REI's Novara
bikes are good
middle of the
road choices.
They are worlds
better than
buying a bike
from a big box
store (WalMart,
KMart,

Acces PDF Novara Bikes

Rei MartMart), but not as good as high end bikes form your local bike shop. And Novara has the added benefit of REI's extraordinary customer support.

As far as Novara goes, you will get better components on a Novara bike than any other brand of the same price point. REI doesn't need to build the cost of advertising into the price of the bike, so

they're able to put the next level components on to a similarly priced bike. But if you don't mind spending a little extra scratch, go for the Ghost!
