Contains over 315 alphabetically arranged articles that provide information about the major functional areas of business, covering accounting, economics, finance, information systems, law, management, and marketing, as well as organizations in business and government, and federal legislation.

Rev. ed. of: Paradigm college accounting. Chapters 1-29. 4th ed. c2000.

A world list of books in the English language.

Accounting for Managers explains how accounting information is used by non-financial managers. The book emphasises the interpretation, rather than the construction, of accounting information and encourages a critical, rather than unthinking acceptance, of the underlying assumptions behind accounting. It links theory with practical examples and case studies drawn from real life business situations in service, retail and manufacturing industries.

Now in its fifth edition, this popular textbook is still the most comprehensive resource available on the oversight of literacy programs (PreK-12). Focusing on what literacy leaders need to know and do to meet today's mandates, experts in the field offer new insights that reflect the nation's changing policies related to the new Common Core State Standards for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects. It also addresses forthcoming assessments aligned to the common core standards, and new mandates for evaluating teachers and principals. Literacy luminaries provide specific guidelines for all levels of instruction, including selecting and using materials and new technologies, promoting writing, assessing students, evaluating teachers, providing professional development, working with linguistically diverse and struggling learners, working with parents and the community, and evaluating school-wide literacy programs.
