Online Library Pythagorean Theorem Word Problems

With Answer Keys

First, use the Pythagorean theorem to solve the problem. The side opposite the right angle is the hypotenuse or c . $c^2 = a^2 + b^2$. $c^2 = 11^2 + 60^2$. $c^2 = 121 + 3600$. $c^2 = 3721$. c is equal to the square root of 3721, so $c = 61$. Now here is how to check your
