Anti-Inflammatory. Individually, ginger and turmeric both have impressive anti-inflammatory benefits. The compound in ginger called gingerol

is responsible for its pungent flavor, and its protective properties. Gingerol has been found to improve inflammatory conditions from a common cold to inflammatory bowel disease.

Health Benefits of Turmeric & Ginger | EatingWell

Ginger's amazing ability to improve immune function has been praised by Ayurvedic medicine since before recorded history. Since ginger is so effective at warming the body, it is believed that it can help to dissolve the buildup of poisons in your organs. It is also known to wash the lymphatic system, which processes our body's sewage. Dr.
