2.7 Chapter Review and Exercises. The six-step job search process provides a constant structure that works for a variety of life situations, including students looking for an internship or full-time job, career changers, people relocating for work, or people coming back to work after unemployment or a leave of absence.

Chapter Review and Exercises - GitHub Pages

The force slowing the skidding car is the force of kinetic friction, and since there's no extra vertical forces, the normal force is just m times g . Since the masses cancel, the acceleration won't depend on the mass of the car, but reducing the coefficient of friction will reduce the deceleration, and reducing the deceleration will increase the distance the car skids to a stop.
