Gender is pertinent to many disciplines, such as literary theory, drama studies, film theory, performance theory, contemporary art history, anthropology, sociology, sociolinguistics and psychology.

However, these

sometimes differ in
their approaches to
how and why
gender is studied.

Written by a team

text introduces
readers to social

focusing on the

human interactions and in the methodological techniques they utilize. Within the pedagogically rich chapters, topics are examined from the perspectives of symbolic interactionism, social structure and personality, and group processes.
