The former pickpocket and charismatic scam artist whose friendship with a disabled French aristocrat inspired a popular motion picture recalls his youth as an Algerian immigrant in Paris and the famous friendship that would change his life.

It was hot at Paduchina even for a summer day. In this village were many houses, but not a soul could be seen anywhere. The bazaar was full of shops and the lanes were lined with houses built either of brick or of mud. Every house was quiet. The shops were closed, and no one knew where the shopkeepers had gone. Even the street beggars were absent. The weavers wove no more. The merchants had no business. Philanthropic persons had nothing to give. Teachers closed their schools. Things had come to such a pass that children were even afraid to cry. The streets were empty. There were no bathers in the river. There were no human beings about the houses, no birds in the trees, no cattle in the pastures. Jackals and dogs morosely prowled in the graveyards and in the cremation grounds. One great house stood in this village. Its colossal pillars could be seen from a distance. But its doors were closed so tight that it was almost impossible for even a breath of air to enter. Within the house a man and his wife were face to face with famine. The year before the harvests had been below normal. So rice was expensive this year and people began to suffer. Then during the rainy season it rained plentifully. The villagers at first looked upon this as a special mercy of God. Cowherds sang in joy, and the wives of the peasants began to pester their husbands for silver ornaments. All of a sudden, God frowned again. Not a drop of rain fell during the remaining months of the season. The rice fields dried into heaps of straw. Here and there a few fields yielded poor crops, but government agents bought these up for the army. So people began to starve again. At first they lived on one meal a day. Soon, even that became scarce, and they began to go without any food at all. The crop was too scanty, but the government revenue collector sought to advance his personal prestige by increasing the land revenue by ten per cent. And in dire misery Bengal shed bitter tears. Beggars increased in such numbers that charity soon became the most difficult thing to practice. Then disease began to spread. Farmers sold their cattle and their ploughs and ate up the seed grain. Then they sold their homes and farms. For lack of food they soon took to eating leaves of trees, then grass and when the grass was gone they ate weeds. People of certain castes began to eat cats, dogs and rats.

Garun Puran is a matchless scripture of satvik category. it is said that reading or listening to the narration of garud puran not only brings happiness in the present life but also takes one closer to the divinity. therefore, all human beings, particularly Hindus, Buddhists, Jains and sikhs must acquire the deep knowledge enshrined in this scripture. the Garud Puran also aims at establishing a welfare society not only for human beings but also for all creatures and also paves the way for well being of the entire ecology and creation. It says that one must be full of action, compassion and generosity. One Should Live a controlled life while remaining Brahmin-nisht (engrossed in Divinity).

Newborn Screening for Sickle Cell Disease and other Haemoglobinopathies is a Special Issue of the International Journal of Neonatal Screening. Sickle cell disease is one of the most common inherited blood disorders, with a huge impact on health care systems due to high morbidity and high mortality associated with the undiagnosed disease. Newborn screening helps to make the diagnosis early and to prevent fatal complications and diagnostic odysseys. This book gives an overview of diagnostic standards in newborn screening for sickle cell disease and examples of existing newborn screening programs.

The #1 New York Times bestseller that examines how people can champion new ideas in their careers and everyday life—and how leaders can fight groupthink, from the author of Think Again and co-author of Option B “Filled with fresh insights on a broad array of topics that are important to our personal and professional lives.”—The New York Times DealBook “Originals is one of the most important and captivating books I have ever read, full of surprising and powerful ideas. It will not only change the way you see the world; it might just change the way you live your life. And it could very well inspire you to change your world.” —Sheryl Sandberg, COO of Facebook and author of Lean In With Give and Take, Adam Grant not only introduced a landmark new paradigm for success but also established himself as one of his generation’s most compelling and provocative thought leaders. In Originals he again addresses the challenge of improving the world, but now from the perspective of becoming original: choosing to champion novel ideas and values that go against the grain, battle conformity, and buck outdated traditions. How can we originate new ideas, policies, and practices without risking it all? Using surprising studies and stories spanning business, politics, sports, and entertainment, Grant explores how to recognize a good idea, speak up without getting silenced, build a coalition of allies, choose the right time to act, and manage fear and doubt; how parents and teachers can nurture originality in children; and how leaders can build cultures that welcome dissent. Learn from an entrepreneur who pitches his start-ups by highlighting the reasons not to invest, a woman at Apple who challenged Steve Jobs from three levels below, an analyst who overturned the rule of secrecy at the CIA, a billionaire financial wizard who fires employees for failing to criticize him, and a TV executive who didn’t even work in comedy but saved Seinfeld from the cutting-room floor. The payoff is a set of groundbreaking insights about rejecting conformity and improving the status quo.

Sometimes, a little nudge from the universe pushes one to find his raison d’être in life. If actor Sonu Sood had given in to the celebrity syndrome of sitting in his ivory tower and expressing his generosity by remote control, he would have never come face to face with the trauma of India’s migrant labourers or understood that a food packet was a woefully inadequate substitute for a ride back home. During the nationwide lockdown, imposed in the wake of the COVID-19 pandemic, when a wave of poverty-stricken migrants set out on foot to make their arduous journey back home, the value of seva, service to mankind, instilled in him by his parents, spurred Sonu Sood into action. From taking to the streets and reaching out to the stranded, to setting up a dedicated team and making arrangements for national and international transport, Sonu managed to help thousands of helpless and needy workers. Thus, began his ‘Ghar Bhejo’ programme, carried out like a humanitarian mission. Chartered flights, buses and trains were sanitized and paid for. Distress calls from all over the world were answered. Soon, the movement snowballed into a campaign for providing jobs, medical facilities and educational aid to workers. The silver-screen villain transitioned into a real-life superhero. In his memoir, I Am No Messiah, Sonu Sood combines the extraordinary experiences of his journey from Moga to Mumbai with the writing skills of veteran journalist and author Meena K. Iyer. Honest, inspirational and heart-warming, this is the story of Sonu Sood and of the people whose lives he continues to transform.

Fashion law encompasses a wide variety of issues that concern an article of clothing or a fashion accessory, starting from the moment they are designed and following them through distribution and marketing phases, all the way until they reach the end-user. Contract law, intellectual property, company law, tax law, international trade, and customs law are of fundamental importance in defining this new field of law that is gradually taking shape. This volume focuses on the new frontiers of fashion law, taking into account the various fields that have recently emerged as being of great interest for the entire fashion world: from sustainable fashion to wearable technologies, from new remedies to cultural appropriation to the regulation of model weight, from advertising law on the digital market to the impact of new technologies on product distribution. The purpose is to stimulate discussion on contemporary problems that have the potential to define new boundaries of fashion law, such as the impact of the heightened ethical sensitivity of consumers (who increasingly require effective solutions), that a comparative law perspective renders more interesting. The volume seeks to sketch out the new legal fields in which the fashion industry is getting involved, identifying the new boundaries of fashion law that existing literature has not dealt with in a comprehensive manner.
