Every hundred years, tradition dictates that all eligible females in Sweetwater assemble for the choosing ceremony. Two vampire kings have separate territories within the surrounding countryside. Both are eager to pick their future brides. What a waste of her freaking time. Tanya is among the many women at the choosing ceremony. As far as she's concerned it's an outdated, sexist event and if it wasn't mandatory she so wouldn't be here. It's not important that the two males are ridiculously rich and handsome. Deep down she knows a plain Jane like her will never be picked by one of the kings anyway. Many of the women in the town square are stunningly beautiful and model thin. Most seem enthusiastic about being a queen even if it means being mated to a blood sucker, which suits her just fine. Imagine her surprise though when King Brant sets his sights firmly on her. Once a vampire king has decided, there's no going back. But her home is in Sweetwater. Being forced to live amongst the vampire

species...big gulp...forced to mate with a vampire...is not what she had in mind for herself. Maybe she can convince him to let her go, to pick again. If not, she'll have to find a way to escape his - very muscled and rather delicious - clutches.

I never expected a night of drinking to end in blood and werewolves. I never expected any of it, not being pimped out by a deranged alpha to repopulate their pack or to be seeking help from an overly serious, overtly sexy scarred stranger who just so happens to be a werewolf himself. I don't have a choice but to trust him, but trusting him shouldn't involve being so drawn to him. Why can't I stop? He said he had been alive for over seventy years, and that was just in passing, so how can I trust that he isn't using me for his own nefarious schemes that I haven't found yet? Why would he help a random human that he stumbled upon anyways? He's a lone werewolf who stumbled upon his True Mate in a cage, she's a flighty junior in college who was only ever interested in sparkly fantasy. Are you ready to run with them through forests, lust, and intrigue? Are they ready to face each other and that war-fractured pack chasing them for her fertility?

She now reclaims stolen items for insurance companies, using her witch powers that manipulate parallel dimensions. "As much as I felt bad for this Elisha person-God, my heart was breaking for the young man and all he'd been through-I was also angry. I'd left that pack in my rearview ten years ago for a good reason." Matthias Longclaw is happy living his life on the back of his beloved Harley with his five best friends and brothers-in-arms at his side. The West Coast Wolves are a rare pack of alphas, made up of unwanted orphans and second-born sons. The packs they were born to may not have wanted them, but they've built a solid family of their own. They help where they can, doing random acts of kindness and expecting nothing in return, just helping to build a

world they want to live in. Then Matt gets a call from an old childhood buddy. He's being called back-begged to return-to reclaim his birthright and save a life in the process. The problem is... to do it, he will have to take a mate. And if he refuses? The omega will die. Torn between his duty to help others and his resentment of his old pack, Matt never expects for Elisha Whitetail to tilt his world and change everything. Can Matt and Elisha rebuild a broken pack while tending to a new love and a growing family while dealing with outside threats from neighboring packs? They're wolves. Strong, proud, and willing to do what it takes when their community needs them... whatever it takes. This is the first in a new mpreg series about finding joy in a hard world, building family, and discovering that life can surprise a person when they least expect it. Although this world has harsher themes than my previous books, it still has the same heart you'd expect. Plus a dose of my irreverent humor and all the naughty, knotty heat that comes with true mates. It wouldn't be a Susi Hawke book without it. Be sure to read the author's note at the beginning for possible trigger warnings.

An awkward, traumatized omega and a patient alpha determined to court him properly... fate has a way of righting old wrongs. Stolen from his mother's arms and reported stillborn at birth, Tom spent nearly twenty-one years in structured captivity with other stolen omegas. His brothers. A dozen omegas, each with a secret superpower, who now must learn a whole new skill-how to thrive in a modern world. Not every brother emerged from their past unscathed, and Tom had the worst of it. His key to survival was a healthy respect for rules. Now that he's free, he's still a little bit obsessive and a whole lot compulsive. He's got anxiety, fear of change... and a list of plans for his future. None of which involved finding a fated mate. But if

they had? His plans definitely wouldn't have been to meet his dream alpha while smelling of afterbirth and the blood of an enemy killed in defense of his pregnant brother-the same brother whose child he then had to deliver... post-shift and naked. If he'd been planning, if he'd made a list and checked it twice, Tom never could've designed an alpha more perfectly devoted than the delicious one fate put in front of him during one of the craziest days of his life... an alpha so patient, he insists on courting the skittish omega. The West Coast Wolves is an mpreg series about five alphas. A small pack of bikers who spent years riding the highways and helping those in need until fate gave them each a pack to lead. This 85k full-length novel is Nick's story. Prepare yourself for a romantic courtship, a perfect first kiss, and more feels and giggles than you can handle. But then again, this is a Susi Hawke book so what else can you expect? Possible triggers for child abduction, trafficking both past and present, and haunting memories of past abuse that included both humiliation and the non-penetrative molestation of a teenager by a person in authority.
