Procedure For The Technical Analysis For Day Trading With

Technical analysis using multiple timeframes is a great way to do this. Sometimes you'll see a great setup on an intraday time frame like a 5-minute chart, only to see that the long-term trend on the daily and hourly charts are in the opposite direction. Time frame continuity is just one more way of putting the odds further in your favor.

To understand the full picture of what a particular asset is doing, it's best to use multiple time frames for your technical analysis. In this article I'll explain which time frames I use and what I look for on each and why. The Need for Multiple Time Frames

How to Use Multiple Time Frames for Technical Analysis

You would then return to your preferred time frame (or even lower!) to make tactical decisions about where to enter and exit (place stop and profit target). Just so you know, this is probably one of the best uses of multiple time frame analysis.. you can zoom in to help you find better entry and exit points. By adding the dimension of time to your analysis, you can obtain an edge over the other tunnel vision traders who trade off on only one time frame.
