Technology and Economic Performance, Page 2 3. Part of this change in perception was an illusion based on a change in the measuring rod. The annual growth rate of output per hour for 1972-95 was 1.1 percent per year based on data available prior to 1999 but jumped to 1.5 percent per year as a result of data revisions announced in late 1999.

NBER WORKING PAPER SERIES TECHNOLOGY AND ECONOMIC ...

The impact of technology on organizational performance. Repeated economic crises and steadily increasing competition, brought about in particular by the globalization of markets, are forcing an unprecedented rationalization of resources. Improved productivity has thus become a concern of all organizations, both public and private.

The impact of technology on organizational performance

A performance evaluation was made with the conclusion that useful quantities of fresh water could be so produced by linking two processes with significant saving in fuel consumption, determining relevant economic benefits. Also, techno-economic analyses had also been made to discuss the economic effects. WTE plants are highly dependent on MSW treatment fees owing to its high installation, operation and maintenance costs.
