William James (1842-1910) was both a philosopher and a psychologist, nowadays most closely associated with the pragmatic theory of truth. The essays in this Companion deal with the full range of his thought as well as other issues, including technical philosophical issues, religious speculation, moral philosophy and political controversies of his time.

Richard Price (23 February 1723 - 19 April 1791) was a Welsh moral philosopher, nonconformist preacher and mathematician. He was also a political pamphleteer, active in radical, republican, and liberal causes such as the American Revolution. He was well-connected and fostered communication between many people, including several of the Founding Fathers of the United States.

Shows Wright's art was intrinsic to his politics, grounding his exploration of the intersections between race, gender, and class.

Richard Strauss is a composer much loved

Download File PDF The Cambridge Companion To Richard Strauss

among audiences throughout the world, both in the opera house and the concert hall. Despite this popularity, Strauss was for many years ignored by scholars, who considered his commercial success and his continued reliance on the tonal system to be liabilities.

However, the past two decades have seen a resurgence of scholarly interest in the composer. This Companion surveys the results, focusing on the principal genres, the social and historical context, and topics perennially controversial over the last century. Chapters cover Strauss's immense operatic output, the electrifying modernism of his tone poems, and his ever-popular Lieder. Controversial topics are explored, including Strauss's relationship to the Third Reich and the sexual dimension of his works. Reintroducing the composer and his music in light of recent research, the volume shows Strauss's artistic personality to be richer and much more complicated than has been previously acknowledged.

Offers a comprehensive introduction to one of the most interesting and controversial philosophers of recent times.

This Companion will assist the reader in apprehending a coherent and synthetic interpretation of the teaching of Vatican II.

This Companion, first published in 2001, aims to provide a broad account of the major

features of Proust's work.

The Cambridge Companion to the Saxophone, first published in 1999, tells the story of the saxophone, its history and technical development from Adolphe Sax (who invented it c. 1840) to the end of the twentieth century. It includes extensive accounts of the instrument's history in jazz, rock and classical music as well as providing practical performance guides. Discussion of the repertoire and soloists from 1850 to the present day includes accessible descriptions of contemporary techniques and trends, and moves into the electronic age with midi wind instruments. There is a discussion of the function of the saxophone in the orchestra, in 'light music' and in rock and pop studios, as well as of the saxophone quartet as an important chamber music medium. The contributors to this volume are some of the finest performers and experts on the saxophone.

An accessible, up-to-date introduction to the life and works of poet and dramatist Ben Jonson.

A comprehensive survey of the main periods, schools and individual proponents of scepticism in the ancient Greek and Roman world.

Fourteen new essays discuss Plato's views

about knowledge, reality, mathematics, politics, ethics, love, poetry, and religion in a convenient, accessible guide that analyzes the intellectual and social background of his thought as well.

The Cambridge Companion to Nathaniel Hawthorne offers students and teachers an introduction to Hawthorne s fiction and the lively debates that shape Hawthorne studies today. In newly commissioned essays, twelve eminent scholars of American literature introduce readers to key issues in Hawthorne scholarship and deepen our understanding of Hawthorne s writing. Each of the major novels is treated in a separate chapter, while other essays explore Hawthorne s art in relation to a stimulating array of issues and approaches. The essays reveal how Hawthorne s work explores understandings of gender relations and sexuality, of childhood and selfhood, of politics and ethics, of history and modernity. An Introduction and a selected bibliography will help students and teachers understand how Hawthorne has been a crucial figure for each generation of readers of American literature.
