The struggle between Rome and Carthage in the Punic Wars was arguably the greatest and most desperate conflict of antiquity. The forces involved and the casualties suffered by both sides were far greater than in any wars fought before the modern era, while the eventual outcome had far-reaching consequences for the history of the Western World, namely the ascendancy of Rome. An epic of war and battle, this is also the story of famous generals and leaders: Hannibal, Fabius Maximus, Scipio Africanus, and his grandson Scipio Aemilianus, who would finally bring down the walls of Carthage.

The first full-scale history of Hannibal's Carthage in decades and "a convincing and enthralling narrative." (The Economist) Drawing on a wealth of new research, archaeologist, historian, and master storyteller Richard Miles resurrects the civilization that ancient Rome struggled so mightily to expunge. This monumental work charts the entirety of Carthage's history, from its origins among the Phoenician settlements of Lebanon to its apotheosis as a Mediterranean empire whose epic land-and-sea clash with Rome made a legend of Hannibal and shaped the course of Western history. Carthage Must Be Destroyed reintroduces readers to the ancient glory of a lost people and their generations-long struggle against an implacable enemy.

A crisply written, well researched . . . superb piece of scholarship about one of the most dramatic and decisive battles in the ancient world (Journal of Military History). At Zama (in what is now Tunisia) in 202 BC, the armies of two great empires clashed: the Romans under Scipio Africanus and Carthaginians, led by

Hannibal, Scipio's forces would win a decisive, bloody victory that forever shifted the balance of power in the ancient world. Thereafter, Rome became the dominant civilization of the Mediterranean. Here, Brian Todd Carey recounts that battle and the grueling war that led up to it. He offers fascinating insight into the Carthaginian and Roman methods of waging war, their military organizations, equipment, and the tactics the armies employed. He also delivers an in-depth critical assessment of the contrasting qualities and leadership styles of Hannibal and Scipio, the two most celebrated commanders of their age. With vivid prose and detailed maps of the terrains of the time, Hannibal's Last Battle is an essential text for fans of military history and students of the classical period.

From an award-winning historian of ancient Rome, the definitive history of Rome's most devastating defeat August 2, 216 BC was one of history's bloodiest single days of fighting. On a narrow plain near the Southern Italian town of Cannae, despite outnumbering their opponents almost two to one, a massive Roman army was crushed by the heterogeneous forces of Hannibal, the Carthaginian general who had spectacularly crossed the Alps into Italy two years earlier. The scale of the losses at Cannae--50,000 Roman men killed--was unrivaled until the industrialized slaughter of the First World War. Although the Romans eventually recovered and Carthage lost the war, the Battle of Cannae became Romans' point of reference for all later military catastrophes. Ever since, military commanders confronting a superior force have attempted, and usually failed, to reproduce Hannibal's tactics and their overwhelming success. In Cannae, the celebrated historian Adrian Goldsworthy offers a concise and enthralling history of one of the most famous battles ever waged, setting Cannae within the larger contexts of the Second Punic War and the nature of warfare in the

third century BC. It is a gripping read for historians, strategists, and anyone curious about warfare in antiquity and Rome's rise to power.

The Death of Carthage tells the story of the Second and third Punic wars that took place between ancient Rome and Carthage in three parts. The first book, *Carthage Must Be Destroyed*, covering the second Punic war, is told in the first person by Lucius Tullius Varro, a young Roman of equestrian status who is recruited into the Roman cavalry at the beginning of the war in 218 BC. Lucius serves in Spain under the Consul Publius Cornelius Scipio and his brother, the Proconsul Cneius Cornelius Scipio. *Captivus*, the second book, is narrated by Lucius's first cousin Enneus, who is recruited to the Roman cavalry under Gaius Flaminius and taken prisoner by Hannibal's general Maharbal after the disastrous Roman defeat at Lake Trasimene in 217 BC. Enneus is transported to Greece and sold as a slave, where he is put to work as a shepherd on a large estate and establishes his life there. The third and final book, *The Death of Carthage*, is narrated by Enneus's son, Ectorius. As a rare bilingual, Ectorius becomes a translator and serves in the Roman army during the war and witnesses the total destruction of Carthage in the year 146 BC. This historical saga, full of minute details on day-to-day life in ancient times, depicts two great civilizations on the cusp of influencing the world for centuries to come.

This second edition examines all aspects of Roman history, and contains a new introduction, three new chapters and updated bibliographies.

How far would you go for Rome? Carthage, 146 BC. This is the story of Fabius Petronius Secundus — Roman legionary and centurion — and of his general Scipio Aemilianus, and his rise to

power: from his first battle against the Macedonians, that seals the fate of Alexander the Great's Empire, to total war in North Africa and the Siege of Carthage. Scipio's success brings him admiration and respect, but also attracts greed and jealousy — for the closest allies can become the bitterest of enemies. And then there is the dark horse, Julia, of the Caesar family — in love with Scipio but betrothed to his rival Paullus — who causes a vicious feud.

Ultimately for Scipio it will come down to one question: how much is he prepared to sacrifice for his vision of Rome? Inspired by Total War: Rome II, from the bestselling Total War computer strategy game series, Destroy Carthage is the first in an epic series of novels. Not only the tale of one man's fate, it is also a journey to the core of Roman times, through a world of extraordinary military tactics and political intrigue that Rome's warriors and citizens used to cheat death.

The Punic Wars between 264 BCE and 146 BCE were a series of wars fought between the armies of ancient Carthage and Rome.
