The Kerdi Shower Book
 The Kerdi Shower Book will never be a paperback. I suppose I should never say never, but it would not be profitable to print and distribute the book. It's too specialized, and it's too short to be a paper book. It's only 84 pages. Also, there would be no way to print the illustrations, especially the big ones that are on the web site.

ECFA BESTSELLER-Over one million copies sold! When a charming polar bear cub climbs into bed one night, she asks her Mama a very important question, one that little "human cubs" often wonder about, too: "Where did I come from?" As Mama bear tucks her youngest cub under the quilts, she gently, tenderly, and reassuringly communicates the message loving parents everywhere (bears and non-bears alike) want their little ones to hear: "We wanted you very, very much, and we are so very glad because-God gave us you." Perfect for bedtime, naptime, storytime or anytime, God Gave Us You provides a valuable opportunity to build children's self-esteem every day and assure each one that he or she truly is a welcomed, precious, and treasured gift from the Lord. Also available in the God Gave Us series: God Gave Us Two God Gave Us Christmas God Gave Us Heaven God Gave Us Love God Gave Us So Much

"From taking a bath to getting a Kiss good night, this book playfully details the nighttime rituals of every little one"--p. [4] of cover.

From a journalist on the frontlines of the Students for Fair Admission (SFFA) v. Harvard case comes a probing examination of affirmative action, the false narrative of American meritocracy, and the attack on Asian American excellence with its far-reaching implications—from seedy test-prep centers to gleaming gifted-and-talented magnet schools, to top colleges and elite business, media, and political positions across America Even in the midst of a nationwide surge of bias and incidents against them, Asians from coast to coast have quietly assumed mastery of the nation's technical and intellectual machinery and become essential American workers. Yet, they've been forced to do so in the face of policy proposals/written in the name of diversity/excluding them from the upper ranks of the elite. In an Inconvenient Minority, Journalist Kenny Xu traces elite America's longstanding unease about a minority potentially upending them. Leftist agendas, such as eliminating standardized testing, doling out racial advantages to "preferred" minorities, and lumping Asians into "privileged" categories despite their deprived historical experiences have spurred Asian Americans to act. Going beyond the Students for Fair Admission (SFFA) v. Harvard case, Xu unearths the skewed logic rippling countryside, from Mayor Bill de Blasio's attempted makeover of New York City's Specialized School programs to the battle over "diversity" quotas in Google's and Facebook's progressive epicenters, to the rise of Asian American activism in response to unfair perceptions and admission practices. Asian Americans' time is now, as they increase their direct action and amplify their voices in the face of mounting anti-Asian attacks. An Inconvenient Minority chronicles the political and economic repression and renaissance of a long ignored racial identity group—and how they are central to reversing America's cultural decline and preserving the dynamism of the free world.

Long before they're able to talk, babies have a whole lot to say! Widen their world with this delightful modern classic—a must-have for growing families and a perfect baby shower or new-baby gift. With this adorable board book of essential signs, babies and toddlers can easily learn how to communicate their needs, wants, and feelings and even make basic observations with a simple gesture. Studies show that babies who use sign language feel less frustrated, throw fewer tantrums, and often learn to talk more easily. Just point to a sign in the book, say the word while making the sign, and the baby will soon be signing. Communicating a wet diaper or a hungry belly, asking for help or saying "all done" becomes as easy as waving hello or good-bye. And these are just a few of the thirteen signs inside this small and adorably illustrated board book, perfect for little hands and minds to grasp.

Explore the forest homes of hedgehogs, rabbits, owls, and foxes and their babies.
