A young girl spends a day helping her father milk their cows, as she does throughout the year.

Following a day in the life of Clarabelle, one of 1,200 cows on a Wisconsin dairy farm, we learn what it takes for a cow to produce life-giving milk and also by-products like electricity. The manure that Clarabelle and her herdmates create not only generates electricity, it provides fresh bedding for cow stalls and fertilizer for the crops grown to feed the cows. Vibrant close-up photographs capture Clarabelle, her calf, and the youngest members of this multi-generational farm family, Josh and Sam, sharing the workload.

This lively trip to the dairy farm introduces calves, heifers, and milkers.

Explains introductory physical science concepts about magnetism through real-world observation and simple scientific diagrams.

Simple text and full-color photos explain the habitat, life cycle, range, and behavior of bats.

‘ The title epitomizes Esbensen ’ s creative presentation of an important concept: how whales differ from the fish they seem to resemble and share characteristics with other mammals.... An excellent addition to the Let ’ s-Read-and-Find-Out series. ’ —K. ‘ Introduces a full range of information about whale anatomy, development, and behavior.... Esbensen ’ s simple, informative text keeps its young audience clearly in view. ’ —BL.

Aliki takes readers on a guided tour that begins with grazing cows, proceeds through milking and a trip to the dairy, and ends with some different foods made from milk. This revised edition of Aliki’s 1974 Green Grass and White Milk is an even more fun-filled and informative explanation of milk’s trip from green grass, to cow, to a cool glass on the table.

Describes how bees turn flower nectar into the honey which the beekeeper extracts from the hive.
