The River of Lost Footsteps - Thant Myint-U - Google Books The River of Lost Footsteps is, basically, a history of Burma (now also called Myanmar); author Thant Myint-U's choice of the plural in his sub-title -- Histories of Burma-- suggests some of the complexity he tries to compress into this one volume. While for the most part he proceeds chronologically, Thant does begin his account out of order, first with 'The Fall of the Kingdom' and the British take-over in the 1880s, and then a brief and more personal look at near-contemporary Burma.

For nearly two decades Western governments and a growing activist community have been frustrated in their attempts to bring about a freer and more democratic Burma—through sanctions and tourist boycotts—only to see an apparent slide toward even harsher dictatorship. But what do we really know about Burma and its history? And what can Burma's past tell us about the present and even its future? In The River of Lost Footsteps, Thant Myint-U tells the story of modern Burma, in part through a telling of his own family's history, in an interwoven narrative that is by turns lyrical, dramatic, and appalling. His maternal grandfather, U Thant, rose from being the schoolmaster of a small town in the Irrawaddy Delta to become the UN secretary-general in the 1960s. And on his father's side, the author is descended from a long line of courtiers who served at Burma's Court of Ava for nearly two centuries. Through their stories and others, he portrays Burma's rise and decline in the modern world, from the time of Portuguese pirates and renegade Mughal princes through the decades of British colonialism, the devastation of World War II, and a sixty-year civil war that continues today and is the longest-running war anywhere in the world. The River of Lost Footsteps is a work both personal and global, a distinctive contribution that makes Burma accessible and enthralling.

Retraces the complex and turbulent story of Burma, from the time of Portuguese pirates to the sixty-year-old civil war that continues today, in an insightful narrative that portrays Burma's rise and decline through the stories of the author's family and others.

Burma is currently ruled by a harsh dictatorship unmoved by Western activists and sanctions. It is also the sight of the longest-running conflict in the world. Drawing both on his own family's stories and his years of hands-on political experience working with the United Nations, Thant Myint-U has written an illuminating account of how Burma's rich past informs its violent present, and of how the world might transform the country's future. How did one of the world’s “buzzy hotspots” (Fodor’s 2013) become one of the top ten places to avoid (Fodor’s 2018)? Precariously positioned between China and India, Burma’s population has suffered dictatorship, natural disaster, and the dark legacies of colonial rule. But when decades of military dictatorship finally ended and internationally beloved Nobel laureate Aung San Suu Kyi emerged from long years of house arrest, hopes soared. World leaders such as Barack Obama ushered in waves of international support. Progress seemed inevitable. As historian, former diplomat, and presidential advisor, Thant Myint-U saw the cracks forming. In this insider’s diagnosis of a country at a breaking point, he dissects how a singularly predatory economic system, fast-rising inequality, disintegrating state institutions, the impact of new social media, the rise of China next door, climate change, and deep-seated feelings around race, religion, and national identity all came together to challenge the incipient democracy. Interracial violence soared and a horrific exodus of hundreds of thousands of Rohingya refugees fixed international attention. Myint-U explains how and why this happened, and details an unsettling prognosis for the future. Burma is today a fragile stage for nearly all the world’s problems. Are democracy and an economy that genuinely serves all its people possible in Burma? In clear and urgent prose, Myint-U explores this question—a concern not just for the Burmese but for the rest of the world—warning of the possible collapse of this nation of 55 million while suggesting a fresh agenda for change.

"Burma has often been portrayed as a timeless place, a country of egalitarian Buddhist villages, ruled successively by autocratic kings, British colonialists and, most recently, a military dictatorship. The Making of Modern Burma argues instead that many aspects of Burmese society today, from the borders of the state to the social structure of the countryside to the very notion of a Burmese or Burman identity, are largely the creations of the nineteenth century, a period of great change, away from the Ava-based polity of early modern times, and towards the 'British Burma' of the 1900s. The book provides a sophisticated and much-needed account of the period, and as such will be an important resource for policy-makers and students as a basis for understanding contemporary politics and the challenges of the modern state. It will also be read by historians interested in the British colonial expansion of the nineteenth century.'"--BOOK JACKET.

China and India have always been separated not only by the Himalayas, but also by the impenetrable jungle and remote areas that once stretched across Burma. Now this last great frontier will likely vanish - forests cut down, dirt roads replaced by superhighways, insurgencies ended - leaving China and India exposed to each other as never before. This basic shift in geography is as profound as the opening of the Suez Canal and is taking place just as the centre of the world's economy moves to the East. Thant Myint-U has travelled extensively across this vast territory, where high-speed trains and gleaming shopping malls now sit alongside the last remaining forests and impoverished mountain communities. In Where China Meets India he explores the new strategic centrality of Burma, the country of his ancestry, where Asia's two rising giant powers - China and India - appear to be vying for supremacy. Part travelogue, part history, part investigation, Where China Meets India takes us across the fast-changing Asian frontier, giving us a masterful account of the region's long and rich history and its sudden significance for the rest of the world. Thant Myint-U is the author of The River of Lost Footsteps and has written articles for the New York Times, the Washington Post and the New Statesman. He has worked alongside Kofi Annan at the UN's Department of Political Affairs and currently works as a special consultant to the Burmese government.

Letters from Burma - an unforgettable collection from the Nobel Peace prize winner Aung San Suu Kyi In these astonishing letters, Aung San Suu Kyi reaches out beyond Burma's borders to paint for her readers a vivid and poignant picture of her native land. Here she celebrates the courageous army officers, academics, actors and everyday people who have supported the National League for Democracy, often at great risk to their own lives. She reveals the impact of political decisions on the people of Burma, from the terrible cost to the children of imprisoned dissidents - allowed to see their parents for only fifteen minutes every fortnight - to the effect of inflation on the national diet and of state repression on traditions of hospitality. She also evokes the beauty of the country's seasons and scenery, customs and festivities that remain so close to her heart. Through these remarkable letters, the reader catches a glimpse of exactly what is at stake as Suu Kyi fights on for freedom in Burma, and of the love for her homeland that sustains her non-violent battle. Includes an introduction from Fergal Keane 'Aung San Suu Kyi has become a global symbol of peaceful resistance, courage and apparently endless endurance' Guardian 'A real hero in an age of phony phone-in celebrity, which hands out that title freely to the most spoiled and underqualified' Bono, Time Aung San Suu Kyi is the leader of Burma's National League for Democracy. She was placed under house arrest in Rangoon in 1989, where she remained for almost 15 of the 21 years until her release in 2010, becoming one of the world's most prominent political prisoners. She is also the author of the collection of writings Freedom from Fear.

A fascinating political travelogue that traces the life and work of George Orwell, author of 1984 and ANIMAL FARM, in Southeast Asia Over the years the American writer Emma Larkin has spent traveling in Burma, also known as Myanmar, she's come to know all too well the many ways this brutal police state can be described as "Orwellian." The life of the mind exists in a state of siege in Burma, and it long has. But Burma's connection to George Orwell is not merely metaphorical; it is much deeper and more real. Orwell's mother was born in Burma, at the height of the British raj, and Orwell was fundamentally shaped by his experiences in Burma as a young man working for the British Imperial Police. When Orwell died, the novel-in-progress on his desk was set in Burma. It is the place George Orwell's work holds in Burma today, however, that most struck Emma Larkin. She was frequently told by Burmese acquaintances that Orwell did not write one book about their country - his first novel, Burmese Days - but in fact he wrote three, the "trilogy" that included Animal Farm and Nineteen Eighty-Four. When Larkin quietly asked one Burmese intellectual if he knew the work of George Orwell, he stared blankly for a moment and then said, "Ah, you mean the prophet!" In one of the most intrepid political travelogues in recent memory, Emma Larkin tells of the year she spent traveling through Burma using the life and work of George Orwell as her compass. Going from Mandalay and Rangoon to poor delta backwaters and up to the old hill-station towns in the mountains of Burma's far north, Larkin visits the places where Orwell worked and lived, and the places his books live still. She brings to vivid life a country and a people cut off from the rest of the world, and from one another, by the ruling military junta and its vast network of spies and informers. Using Orwell enables her to show, effortlessly, the weight of the colonial experience on Burma today, the ghosts of which are invisible and everywhere. More important, she finds that the path she charts leads her to the people who have found ways to somehow resist the soul-crushing effects of life in this most cruel police state. And George Orwell's moral clarity, hatred of injustice, and keen powers of observation serve as the author's compass in another sense too: they are qualities she shares and they suffuse her book - the keenest and finest reckoning with life in this police state that has yet been written.

No country in Asia in recent years has undergone so massive a political shift in so short a time as Myanmar. Until recently, the former British colony had one of the most secretive, corrupt, and repressive regimes on the planet, a country where Nobel Peace Prize laureate Aung San Suu Kyi was held in continual house arrest and human rights were denied to nearly all. Yet events in Myanmar since the elections of November 2010 have profoundly altered the internal mood of the society, and have surprised even Burmese and seasoned foreign observers of the Myanmar scene. The pessimism that pervaded the society prior to the elections, and the results of that voting that prompted many foreign observers to call them a "sham" or "fraud," gradually gave way to the realization that positive change was in the air. In this updated second edition of Burma/Myanmar: What Everyone Needs to Know®, David I. Steinberg addresses the dramatic changes in the country over the past two years, including the establishment of a human rights commission, the release of political prisoners, and reforms in health and education. More than ever, the history, culture, and internal politics of this country are crucial to understanding the current transformation, which has generated headlines across the globe. Geographically strategic, Burma/Myanmar lies between the growing powers of China and India. Yet it is mostly unknown to Westerners despite being its thousand-year history as a nation. Burma/Myanmar is a place of contradictions: a picturesque land with mountain jungles and monsoon plains, it is one of the world's largest producers of heroin. Though it has extensive natural resources including oil, gas, teak, metals, and minerals, it is one of the poorest countries in the world. And despite a half-century of military-dominated rule, change is beginning to work its way through the beleaguered nation, as it moves to a more pluralistic administrative system reflecting its pluralistic cultural and multi-ethnic base. Authoritative and balanced, Burma/Myanmar is an essential book on a country in the throes of historic change. What Everyone Needs to Know® is a registered trademark of Oxford University Press.

Wendy Law-Yone was just fifteen when Burma's military staged a coup and overthrew the civilian government in 1962. The daughter of Ed Law-Yone, the daredevil founder and chief editor of The Nation, Burma's leading postwar English-language newspaper, she experienced firsthand the perils and promises of a newly independent Burma. On the eve of Wendy's studies abroad, Ed Law-Yone was arrested and The Nation shut down. Wendy herself was briefly imprisoned. After his release, Ed fled to Thailand with his family, where he formed a government-in-exile and tried, unsuccessfully, to foment a revolution. Exiled to America with his wife and children, Ed never gave up hope that Burma would one day adopt a new democratic government. Though he died disappointed, he left in his daughter's care an illuminating trove of papers documenting the experiences of an eccentric, ambitious, humorous, and determined patriot, vividly recounting the realities of colonial rule, Japanese occupation, postwar reconstruction, and military dictatorship. This memoir tells the twin histories of Law-Yone's kin and his country, a nation whose vicissitudes continue to intrigue the world.
