An improved Lynx for the Royal Navy, the Lynx HAS.3, had Gem 42-1 Mark 204 engines, an uprated transmission, a new flotation system and an Orange CropESMsystem. The Lynx HAS.3 also received various other updates in service. A similar upgrade to the French Lynx was known as the Lynx Mk.4(FN).

Westland Lynx – Wikipedia

The AgustaWestland AW159 Wildcat is a British military helicopter. It is an improved version of the Westland Super Lynx designed to serve in the battlefield utility, search and rescue and anti-surface warfare roles. In British service, common variants are being operated by both the Royal Navy and British Army, having replaced their Lynx Mk.7/8/9 predecessors. The AW159 has also been offered to several export customers, and has been ordered by the Republic of Korea Navy and the Philippine Navy.

The Royal Navy Lynx – Casemate UK

The Lynx, which has a wheeled undercarriage in maritime form, operates from the small decks of the Navy's frigates and destroyers, as well as the ice patrol ship HMS Endurance. Its primary armament comprises Sea Skua missiles for anti-surface warfare, and Sting Ray torpedoes and depth charges for use against submarines; door-mounted guns can tackle smaller surface targets.

Royal Air Force Charitable Trust Enterprises – Royal Navy Lynx

Lots of different nations are continuing to use the Lynx in a maritime capacity with younger versions of the aircraft, we have got the last seven here in the Royal Navy inventory at 815 NAS but we are a squadron that is very much in transition, we have got the last two months now of operating the Lynx alongside the Wildcat so come the 31 st of March the last Lynx will have been taken out of service and we will be an all Wildcat squadron. At the moment we are a 50 percent Wildcat (7 aircraft ...

Royal Navy Lynx Retirement – AeroResource

The Westland Lynx is a British multi-purpose military helicopter designed and built by Westland Helicopters at its factory in Yeovil. Originally intended as a utility craft for both civil and naval usage, military interest led to the development of both battlefield and naval variants.

Westland Lynx | Military Wiki | Fandom

24 March 2017. Navy bids goodbye to long-serving Lynx helicopter with praise from Britain's two most senior sailors as one of the Royal Navy's most successful aircraft passed into history. The Lynx helicopter - mainstay of operations by Royal Navy around the globe since the late 1970s - has retired from service after just short of half a million hours in skies, from the searing heat of Iraq and the Gulf, to the punishing cold of Antarctica and the South Atlantic.

Maritime Lynx passes into history | Royal Navy

Replacing the Lynx Mk8, the Wildcat has a more powerful engine allowing it to be flown in extreme conditions all year round. It is also equipped with a more robust fuselage, a high tech interactive display and a new radar system that provides 360-degree surveillance. ... Royal Navy personnel may come from all walks of life, but they are united ...

Wildcat | Royal Navy

Ten Royal Navy ships have been named HMS Lynx after the wild cat : Lynx was a 10-gun sloop launched in 1761 and sold in 1777. Lynx was a 16-gun sloop launched in 1777. Converted to a hospital ship in 1780, the ship was sold in 1783.

HMS Lynx | Military Wiki | Fandom

The Lynx played a significant part in the naval battles of the first Gulf War in 1991. Aircraft from HMS Cardiff, Gloucester, Manchester and Brazen used Sea Skua missiles to destroy 14 Iraqi naval vessels during 21 separate engagements that lasted over 13 hours. From 1992 existing airframes received a substantial upgrade to HMA.8 standard.
