The legends of the Seven Sisters of the Pleiades that poets, priests, prophets, shamans, storytellers, artists, singers, and historians have told throughout time are retold in this compilation of the stories that have found their inspiration in nine beautiful stars clustered together in the night sky. While particular attention in this cross-cultural study is paid to the influence of the Pleiades cluster on the living traditions of indigenous people in North America, Australia, Japan, and the Pacific, much ancient mythology passed down through written and visual sources from ancient Egypt, India, Greece, and South America is also explored. Appearances of the myths in the modern world are also mentioned, including American presidential elections, Halloween, Atlantis, the Titanic, and Subaru automobiles. Serious astronomical research complements the variety of mythological explanations for the stars' existence by providing the modern world's scientific understanding of them.

In 1939, New Yorker Cecily Huntley-Morgan arrives in Kenya's Lake Naivasha region for the exciting chance to stay with her godmother, the famous socialite Kiki Preston. But after a sheltered upbringing, she's astounded by the hedonistic antics of the other ex-pats in the infamous Happy Valley set. Cecily soon grows to love her stunning but complicated new home, and she even accepts a proposal of marriage from an enigmatic older cattle farmer. After a shocking discovery and with war looming, Cecily feels isolated and alone. Until she meets a young woman in the woods and makes her a promise that will change the course of her life forever. Featuring Lucinda Riley's "engaging and mesmerizing" (Library Journal, starred review) storytelling and filled with unforgettable and moving characters, *The Sun Sister* explores how love can cross seemingly impossible boundaries.

Divorced and estranged from her grown daughters, Candida Wilton moves to a run-down flat well below her means and finds exhilaration in her self-imposed poverty, during which she confides her thoughts to a computer and makes friends with new peers.
