The Smart Swarm | Guide books

Miller identifies four major principles of smart swarms: self-organization, diversity of knowledge, indirect collaboration, and adaptive mimicking. Here are ten points I took from his discussion of the four principles:

The Smart Swarm: How Understanding Flocks, Schools, and ... Communicating Decision Making Getting Things Done Peter Miller

The major principles of a smart swarm are: 1. Self-organization - this is made up of decentralized control (nobody's in charge), distributed problem-solving (each individual sorts something out), and multiple interactions (lots of individuals paying attention to what the other is doing). 2.
