A fifth-century Indian Buddhist monk, Bodhidharma is credited with bringing Zen to China. Although the tradition that traces its ancestry back to him did not flourish until nearly two hundred years after his death, today millions of Zen Buddhists and students of kung fu claim him as their spiritual father. While others viewed Zen practice as a purification of the mind or a stage on the way to perfect enlightenment, Bodhidharma equated Zen with buddhahood and believed that it had a place in everyday life. Instead of telling his disciples to purify their minds, he pointed them to rock walls, to the movements of tigers and cranes, to a hollow reed floating across the Yangtze. This bilingual edition, the only volume of the great teacher's work currently available in English, presents four teachings in their entirety. "Outline of Practice" describes the four all-inclusive habits that lead to enlightenment, the "Bloodstream Sermon" exhorts students to seek the Buddha by seeing their own nature, the "Wake-up Sermon" defends his premise that the most essential method for reaching enlightenment is beholding the mind. The original Chinese text, presented on facing pages, is taken from a Ch'ing dynasty woodblock edition.

This complete collection of teachings by the 9th century Zen Master has been an essential text in the study of Zen for centuries—now available in English. This translation of the original collection of sermons, dialogues, and anecdotes of Huang Po, the illustrious Chinese master of the Tang Dynasty, allows the Western reader to gain an understanding of Zen from the original source, one of the key works in its teachings. It also offers deep and often startling insights into the rich treasures of Eastern thought. Nowhere is the use of paradox in Zen illustrated better than in the teaching of Huang Po, who is regarded as the founder of the great Lin Chi sect. He demonstrates that the experience of intuitive knowledge, which reveals to a man what he is, cannot be communicated in words. With the help of these paradoxes, beautifully and simply presented in this collection, Huang Po could set his disciples on the right path. It is in this fashion that the Zen master lead his listener into truth, often by a single phrase designed to destroy his particular demon of ignorance. John Blofeld's translation reflects his deep understanding of Zen and gives this historical text a clear and faithful presentation.

This Historical text from the direct teaching of the Zen master, Huang Po, allows the Western reader to gain an understanding of Zen from the original source, one of the key works in its teachings; it also offers deepening and often startling insights into the rich treasures of Eastern thought. Huang Po, also known as Hsi Yun, is believed to have died as late as 850 A.D. He is regarded in a sense as the founder of the great Lin Chi sect. He lived below the Vulture Peak on Mount Huang Po, in the district of Kao An. Like most Zen masters, Huang Po taught in parables which were delivered as sermons, anecdotes, and dialogues. These have been collected here to present the teachings of the Master himself. He compares the mind to the sun travelling through the sky, sending forth light uncontaminated by the finest particle of dust. For those who have discovered the nature of Reality, he says, there is nothing old or new, concepts become meaningless and reason leads to error. Nowhere is the use of paradox in Zen illustrated better than in the teachings of Huang Po, who shows how the experience of intuitive knowledge which reveals to a man what he really is, cannot be communicated by words. With the help of these paradoxes, beautifully and simply presented in this collection, Huang Po could set his disciples on the right path. It is in this fashion that the Zen master leads his listener into the truth, often by a single phrase designed to destroy his particular demon of ignorance. Many of the dialogues recorded in The Zen Teaching of Huang Po took place in public assembly, generally with hundreds of the Master's followers in attendance. This text is remarkable for its purity of thought and speech. John Blofeld's translation reflects his deep understanding of Zen and gives it a crystal clear presentation. In addition, there are an introduction and explanatory notes that make this original and revered text even more valuable to the contemporary reader.
