Trials of Death - Wikipedia

The Darkening is the second book in the Vampire Trials series and I loved it even more than the first. It's dark, snarky, funny and has a lot of hot guys what's not to like. Scarlett has grown more confident in her role as the face of the rebellion, she has gone through training, learning new things, and even goes on missions.

Darren begins the Trials of Initiation to prove himself worthy of being a half-vampire, even as the clan's blood foes, the vampaneze, gather near Vampire Mountain.

I became the face of the human revolution over night. After I ended the trials, possibly forever, the Governors vanished taking my mother and leaving no traces behind. The city is on fire, and although I'd love to sit back and watch it burn there's a new problem at hand. The Governors plan to use a magical device to throw the entire country into an even more barbaric version of the Vampire Trials. My supernatural mates and I may be the only ones standing in between the world, and complete self destruction. As time dwindles and we try to gather the magical artifacts before them, mysteries of my life begin to unravel. I realize that in a magical world where nothing is as it seems, neither am I. I'm tested beyond my breaking point and I begin to question whether holding on to my humanity is even worth it. It's become so much bigger than my freedom alone. Now the weight of humanity rests on my shoulders, but as more supernatural things start to happen around me I start to question- Does that weight even belong there?

New slayer Faith appears strong, sexy, and willful when she arrives in Sunnydale, qualities Buffy learns to admire and work with, until Faith's impulsive attitude and inability to cope with consequences push

Place to sleep--uh, kind of? Job--crap! I've bitten off more than I can chew, but that's the least of my worries. My city is a giant board game. The Gospel of Blood is the autobiography of Nico Claux, a French morgue attendant whose morbid obsessions led him to grave robbery, cannibalism and murder in the early 1990s. It is a bone-chilling chronicle of a real-life vampire who prowled the Gothic cemeteries of Paris, unearthing coffins and mutilating the bodies inside. A practicing Satanist, Claux escalated to murder after working for a year in several morgues, receiving orders to kill from the corpses he had autopsied. The Gospel of Blood provides a rare insight into a killer's tortured mind, as he relates the graphic details of his crimes, including never-before revealed confessions. It is a fascinating look inside the thoughts of a psychotic murderer who has found redemption in prison through art.

LAST ONE TO THE GRAVE, WINS. Being a killer wasn't what eighteen year old Selena Grey ever expected she'd become. But with her stepfather's blood fresh on her hands, she finds herself walking into an eight by six prison cell where she'll live out the next twenty

five years of her life. Or so she thought...When a man as beautiful as he is terrifying walks into the prison, Selena is the only one seemingly unaffected by his charms. But Varick's impossibly dark eyes are trained on her and her alone, frightening Selena of what his presence forewarns. It's not long before she finds out as she wakes on a ship in the dead of night, a captive of the forbidding Varick who seems more beast than man. But when she arrives at a barren and isolated island in the stormy north sea, she soon realises that the obnoxious Varick may be her only hope of survival. Because, in a place where polar night reigns for the next six months, a powerful and cruel family are about to start this year's season of the V Games. And Selena is marked to participate in the blood sport, hunted by ravenous vampires and surviving the harsh terrain of the bleak island. And, not only that, but Selena just became the highest bid on contestant in a century...

Drax. Colt. Finn. The three vampire bad boys that have been terrorizing the night life of this city since they were old enough to know what a party was. On top of being insanely rich and handsomely supernatural there's one more thing that makes them untouchable- they're next in line to rule this city. For the last hundred years humans have been at the bottom of the food chain since the rise of supernaturals, and in our city vampires rule the roost. Divided into three different triads, each section of the city has a vampire governor who is fit to do as he pleases. Drax, Colt, and Finn are next in line for those thrones. To keep their subjects in line every five years they do a purge where every adult man is fair game

for any vampire to feed on for twenty-four hours. To determine which triads need to participate in the purge and which one will be exempt, three people from each triad are summoned to partake in a sick and twisted game to survive. The winner gets to guarantee safety for their community. The losers die. For years I had kept my head down, followed every triad law, and focused on keeping my mother alive. But an announcement that women will now be included in the summoning turns my world upside down. The first person to be summoned from triad three is me. I came into this prepared to fight for my life, but what I didn't expect was the city's supernatural playboys' attraction to me. In the Vampire Trials only one thing matters to me- getting home to my mom. And when I say I'd do anything to get there, I mean it. But piece by piece the trials chip away at who I thought I was and what I thought I knew about supernaturals. The worst part? I love it.

Darren begins the Trials of Initiation to prove himself worthy of being a half-vampire, even as the clan's blood foes, the vampaneze, gather near Vampire Mountain.
