Turning Numbers into Knowledge. The industrial hygiene community has witnessed exponential growth in the use of sensors, especially by individuals. Remote wireless sensors are now monitoring worker health, the environment, agriculture, work sites, disaster relief, and "smart" buildings and facilities. Sensors hold great promise for empowering workers and improving risk-informed management decisions.

Turning Numbers into Knowledge - The Synergist

We also know the challenges of interpreting and converting “ numbers ” from such instruments into defensible and actionable decisions. The concept of “ informatics ” can help us organize how we seek, create, curate, analyze, and apply modern information.
