According to Volvo Penta, they are doing a recall of certain D-130 and D2-40 compact auxiliary engines. These Perkins engines, marinized by Volvo Penta for the recreational boating industry, are good engines, but do not comply with USA emissions standards and have to be replaced. The recall started on July 1, 2017, and ends July 1, 2019. New engines with a 2-year warranty will be provided.

maintenance Extend the life and improve the efficiency of your engine

Originally published: RYA diesel engine handbook / by the Royal Yachting Association, 2006.

Most diesel engines will develop a problem at some point in their lives, but armed with the right knowledge a skipper needn't worry. The Reeds Diesel Engine Troubleshooting Handbook is a compact, pocket-sized guide to finding solutions to all of the most common engine problems, and many of the less common ones too. The perfect format for quick reference on board, this book will help skippers fix troublesome engines themselves, avoiding costly engineer fees if the problem is simple to sort out, or enabling an emergency patch-up for a more serious problem until they can get back to port. Each topic addresses a particular engine problem, and gives clear step by step instructions with helpful colour photographs and diagrams showing exactly what to do. Straightforward and accessible, the Reeds Diesel Engine Troubleshooting Handbook should be an essential part of any skipper's DIY toolkit - and perfect for slipping in the pocket.
