A three-level series of grammar reference and practice books for teenage and young adult learners. Active Grammar Level 1 covers all the grammar taught at A1-A2 (CEF) level. The book presents grammar points in meaningful context through engaging and informative texts, followed by clear explanations and useful tips that highlight common mistakes usually made by low-level learners. Example exercises provide plenty of challenging practice and encourage students to apply their own ideas creatively to grammar learning. A large number of contrastive revision exercises in the book and on the CD-ROM allow students to assess and monitor their progress at regular intervals. This version without answers and CD-ROM is suitable for classroom use and self-study.

THE #1 INTERNATIONAL BESTSELLER WITH OVER 28 MILLION COPIES IN PRINT! A timeless business classic, *Who Moved My Cheese?* uses a simple parable to reveal profound truths about dealing with change so that you can enjoy less stress and more success in your work and in your life. It would be all so easy if you had a map to the Maze. If the same old routines worked. If they'd just stop moving "The Cheese." But things keep changing... Most people are fearful of change, both personal and professional, because they don't have any control over how or when it happens to them. Since change happens either to the individual or by the individual, Dr. Spencer Johnson, the coauthor of the multimillion bestseller *The One Minute Manager*, uses a deceptively simple story to show that when it comes to living in a rapidly changing world, what matters most is your attitude. Exploring a simple way to take the fear and anxiety out of managing the future, *Who Moved My Cheese?* can help you discover how to anticipate, acknowledge, and accept change in order to have a positive impact on your job, your relationships, and every aspect of your life.

Before there was Lois Lowry's *The Giver* or M. T. Anderson's *Feed*, there was Robert Cormier's *I Am the Cheese*, a subversive classic that broke new ground for YA literature. A boy's search for his father becomes a desperate journey to unlock a secret past. But the past must not be remembered if the boy is to survive. As he searches for the truth that hovers at the edge of his mind, the boy—and readers—arrive at

a shattering conclusion. “An absorbing, even brilliant job. The book is assembled in mosaic fashion: a tiny chip here, a chip there. . . . Everything is related to something else; everything builds and builds to a fearsome climax. . . . [Cormier] has the knack of making horror out of the ordinary, as the masters of suspense know how to do.”—The New York Times Book Review “A horrifying tale of government corruption, espionage, and counter espionage told by an innocent young victim. . . . The buildup of suspense is terrific.”—School Library Journal, starred review An ALA Notable Children’s Book A School Library Journal Best Book of the Year A Horn Book Fanfare A Library of Congress Children’s Book of the Year A Colorado Blue Spruce Young Adult Book Award Nominee

The FoLLI LNAI subline aims to disseminate cutting-edge results in logic, language and information (LLI) research, development and education. LLI is the topical focus of FoLLI, the Association of Logic, Language and Information (www.folli.org). FoLLI was founded in 1991 to advance research and education on the interface between logic, linguistics, computer science and cognitive science and related disciplines. Cross-fertilization between these areas has frequently led to significant progress on challenging research problems. Consequently, titles in the FoLLI LNAI series are targeted at researchers in multiple disciplines. As one of its major international activities, FoLLI organizes each year the European Summer School for Logic, Language and Information (ESSLLI). In parallel to the printed book, each new volume is published electronically in LNCS/LNAI Online.
